

## SANITEC SB18

### PRODUCT DESCRIPTION

SANITEC SB acrylic profiles seamlessly integrate around the edges of modern acrylic bathtubs and shower stalls. Internal corners and endcaps are available to install enclosed bathtubs.

### TECHNICAL FEATURES

Length: 1,95 meters

Metacrylate

### MATERIAL DESCRIPTION

#### Methacrylate PMMA

PMMA methacrylate:

A plastic material used for the production of shower trays because it is durable yet workable to create specific geometries and aesthetically pleasing for its smooth surface. For seamless integration of the profile with the tub.

### APPLICATION

1. Cut the profile to the required length;
2. Apply the adhesive (FIXXTEC) to the part of the profile to be adhesived, or remove the protective paper from the adhesive for self-adhesive versions, and position the profile correctly without further adjustments;
3. Apply the profile with uniform pressure without hammering;
4. Remove any adhesive residue from the profile immediately.

## CLEANING AND MAINTENANCE

### SYNTHETIC RESIN:

Thermoplastic synthetic resin does not require any special maintenance.

It can be easily cleaned with colorless alcohol diluted in water or with normal detergents, provided they are not acid-based, also diluted in water; rinse with water only. Use non-abrasive sponges or cloths to avoid scratching the surface.

## WARNINGS

The indications and specifications contained herein, while consistent with our experience, are purely indicative and require confirmation through extensive practical applications. Profilitec declines all responsibility for any damage to persons or property resulting from improper use of the product. The user is responsible for determining whether or not the product is suitable for the intended use and assumes all responsibility for any damage resulting from incorrect installation of the material.
