

BORDERTEC BBO-BCO perimeter profiles trim and protect the exposed concrete border on balconies and terraces. The indented lip of the profile section contains and protects the tile edge.

border+tec™ BBO-BCO

A small, perforated channel under the protruding lip of the section allows water and humidity drainage. Leave a gap to allow for thermal expansion and contraction of the different materials; conceal the gap with an appropriate profile.

(BCO 50 A*)

BORDERTEC BBO-A* / BCO-A* Powder Coated Aluminum
BBO: H = 3/8" (10mm), BCO: H = 1/2" (12.5mm)

This profile is coated with polyester powder along its entire surface.
 External Corner Joint: cod. BBOE-A* / BCOE-A*
 Connector: cod. BBOG-A* / BCOG-A*
