

border+tec™ BR

Excellent for retrofit applications, **BORDERTEC BR** patented profiles complete terrace tiling installations without any prior on-site preparation. The rounded profile section contains an integrated drip channel and the external corner element easily joins profile segments. Leave a gap to allow for thermal expansion and contraction of the different materials; conceal the gap with an appropriate profile.

(BR 100*)

BORDERTEC BR-A* Powder - Coated Aluminum

This profile is coated with polyester powder along its entire surface and contains an integrated drip channel. It is an excellent alternative to special ceramic tile finishing elements.

External Corner Joint: cod. BOSE-A*
Connector: cod. BOSG-A*

	H1 = in	mm	H = in	mm	Art.	Finish
Material:	9/16	15	5/16	8	BR	80
