CARPETEC MA 24 A*Self-Adhesive Anodized Aluminum
Self-adjusting trim profile. The self-adhesive strip underneath the profile guarantees fast, strong and lasting grip without adding floor thickness.

	B = in	mm	Art.		
Material:	15/16	24	MA	24	ASA
Extruded Anodized Aluminum	15/16	24	MA	24	AOA
	15/16	24	MA	24	ABA
Length: 8'10" (2.70 meters)					
35-7/16" / 4' 5" (0.90 / 1.35 meters)					

CARPETEC MS 26 A* Anodized Aluminum
The narrow top surface of this self-adjusting trim profile is ideal for discreet installations. The self-adhesive strip underneath the profile guarantees fast, strong and lasting grip without adding floor thickness. Available in two versions: self-adhesive and pre-drilled.

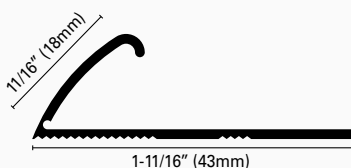

Material:	1-1/32	26	MS	26	ASF/A
Extruded Anodized Aluminum	1-1/32	26	MS	26	AOF/A
	1-1/32	26	MS	26	ABF/A
Length: 8'10" (2.70 meters)					
35-7/16" / 4' 5" (0.90 / 1.35 meters)					

CARPETEC MS 26 OLN Polished Brass
Due to the intrinsic qualities of the material, this classic, solid brass profile guarantees resistance to chemical and mechanical impact and is suitable for elegant interior detailing.

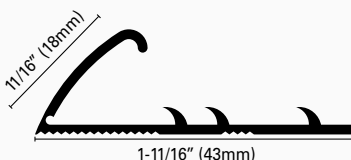

Material:	1-1/32	26	MS	26	OLN
Extruded Brass					
Finish: Polished (OLN)					
Length: 8'10" (2.70 meters)					
35-7/16" / 4' 5" (0.90 / 1.35 meters)					

CARPETEC MD 43 A*F Anodized Aluminum - Pre-drilled
The wide profile base makes it ideal as edge trimming for area carpeting and walkways. The base can also be fitted with self-adhesive tape that temporarily holds the profile in place.

Material:	1-11/16	43	MD	43	ASF
Extruded Anodized Aluminum	1-11/16	43	MD	43	AOF
	1-11/16	43	MD	43	ABF
Length: 8'10" (2.70meters)					

CARPETEC MD 43 A*D Anodized Aluminum - Toothed
The toothed profile base is optimal for gripping stretched carpet.

Material:	1-11/16	43	MD	43	ASD
Extruded Anodized Aluminum	1-11/16	43	MD	43	AOD
	1-11/16	43	MD	43	ABD
Length: 8'10" (2.70meters)					

Pre-cut length available in SELFLINE kit L = 35-7/16" / 4' 5" (0.90/1.35m)
