

jointec™ P

**JOINTEC P** multipurpose lateral anchoring flange adapts **JOINTEC GE, GM** and **GD** expansion joints into wall-to-floor perimeter joints. The vertical anchoring flange can be installed on the wall facing upwards or downwards hidden in the gap between the wall and the floor.

(GEP 200\* - GDP 400 AN\*)

**JOINTEC GEP/GELP Natural Aluminum**

Bridges a 1-9/16" / 2" (40 / 50mm) gap.  
Perimeter version of the JOINTEC GM/GML structural joint series with a 1-15/32" or 1-27/32" (37 or 47mm) - wide rubber insert. Ribbed or smooth versions of the rubber insert are available upon request; see page 179.

**JOINTEC GMP/GMLP Natural Aluminum**

Bridges a 1-9/16" / 2" (40 / 50mm) gap.  
Perimeter version of the JOINTEC GE/GEL structural joint series with a 1-15/32" or 1-27/32" (37 or 47mm) - wide rubber insert. Ribbed or smooth versions of the rubber insert are available upon request; see page 179.

**JOINTEC GDP/GDLP Natural Aluminum**

Bridges a 1-11/16" / 2-3/32" (43 / 53mm) gap.  
Perimeter version of the JOINTEC GD/GDL structural joint series with a 1-15/32" or 1-27/32" (37 or 47mm) - wide rubber insert. Ribbed or smooth versions of the rubber insert are available upon request; see page 179.
