

LISTEC LI 15 glittered aluminum decorative profile is conceived for ceramic tile wall coverings. The unique squared section perfectly aligns with modern rectified tile edges. Due to the 5/16" (8mm) profile thickness and interlocking plastic spacers, the strip profile is adaptable to any tile thickness over 9/32" (7mm). The glittered surface sealed with resin protects against scratches. For information on the plastic spacers (LIA) see page 126.

listec LI 15 glitter

LISTEC LI 15 GLITTER:

1. Elegantly finishes bathroom interiors with a modern, minimalist design.
2. Adapts to all tile sizes and finishes, eliminating the need for special tile elements.
3. The plastic spacers LIA adapt the profile to fit 3/8"-15/32" (10-12mm) tile thicknesses.

LISTEC LI 15-A* Glittered Anodized Aluminum
