

multiclipLVT CLP 240

Patented perimeter profile for LVT floors requiring an expansion gap – the internal 12mm cavity allows the underlying flooring to move more than $\pm 5/32''$ (± 4 mm). Eliminates the need for baseboards, guaranteeing the expansion and perimetrical fastening of the floor. May be used as entrance mat framing and in front of sliding doors.

MULTICLIP – LVT CLP 240 A* Anodized Aluminum

Aluminum anodized in silver, gold and bronze, the profiles are particularly versatile and can be matched with all floor surfaces.

Assemble with Clip **CL 40 P** + Aluminum base **CLB 60 ANF**.
