

Drywall is the most commonly used material in modern residential and commercial construction. PLANO PS130, a new, one-of-a-kind profile elegantly finishes drywall ceiling and wall installations. Its discreet, 33/64"x33/64" (13x13mm) profile section perfectly edges drywall panels, becoming a minimalist design feature. At the floor level, the profile connects with the PLANO DESIGN BF baseboard for a fully integrated installation. The result is a profile that leaves a small gap of negative space, almost suspending the wall in mid-air.
