Brass section

(RJ 801* - RJ 1000*)

RoundJolly RJ-IL Stainless Steel AISI 304 DIN 1.4301 / AISI 316 DIN 1.4401

Stainless steel ensures high resistance to corrosion, making this profile ideal in food processing plants, commercial kitchens and hospitals. AISI 316 standard is recommended for marine environments and harsh chemical exposure.

Round Endcaps:

RJC: External Endcaps

RJI: Internal Endcaps

ROUNDTEC RD-ON Brass

Due to its unique shape and the intrinsic qualities of the material, this brass profile guarantees resistance to chemical and mechanical stress and wear. It is used indoors and outdoors, particularly suitable for areas with heavy, industrial traffic as well as for elegant residential detailing. Available in natural brass (ON) or polished brass (OL).
