

sanitec IC

Conceived as hygienic wall-to-wall or wall-to-floor transitions, **SANITEC IC** cove-shaped profiles meet hygiene standards in public spaces subject to sanitary inspection, such as hospitals, food processing plants, industrial kitchens and public bathrooms. Ideal for retrofit applications in public building renovations. The slightly rounded edges seal the profile onto the surface. Use our adhesive for on-site installation. The H 2-3/8" (60mm) version also acts as a baseboard.

SANITEC IC-ILN Polished Stainless Steel AISI 304 - DIN 1.4301

This stainless steel profile ensures good resistance to mechanical impact and high resistance to corrosion from most diluted chemicals found in laboratories and aggressive detergents present in food processing plants, commercial kitchens, slaughter houses, breweries, public bathrooms and hospitals. Internal (ICI), external (ICE) and three-way (ICT) joint pieces are available.
