

The patented **SQUAREJOLLY SJQ** aluminum decorative profile is designed for ceramic tile wall coverings. The unique squared section perfectly aligns with modern rectified tile edges and defines horizontal and vertical geometrical patterns on surface decorations. Two dovetailed cavities within the profile guarantee strong mechanical anchoring, allowing installation before or after the laying process.

squarejolly SJQ

SQUAREJOLLY SJQ-A* Silver Anodized Aluminum

This profile has a silver coating (AS) which offers adequate resistance to use and wear. The polished surface finish of this profile, available in bright polished chrome (KJ**ASB), is highly resistant to oxidation and especially suited for matching polished bathroom accessories.

SQUARECAPSULE SJC-A* Silver Anodized Aluminum Capsule Element Profile A single, symmetrical element acts as an endcap and resolves all types of internal, external and three-way intersections.
