

squarejolly *SJR*

SQUAREJOLLY SJR with Resin Grip is a square section profile designed to finish and protect the tile's edges from shocks and mechanical impacts. Minimal and modern design, ideal for residential projects. The resin stripes on the upper surface make the Squarejolly SJR anti slip, certified R11. The profile is also resistant to abrasion (PEI 3) and to chemical agents.

Stair nosing SJR is certified R11.
Antislip properties under DIN 51130 (06/2004) regulation.

SQUAREJOLLY SJR-AS Brushed silver anodised aluminium with Resin Grip
Silver anodised aluminium profile. The resin stripes on the upper surface gives to the profile the anti slip property in an elegant and discrete way.
