

The square, stainless steel **SQUAREJOLLY SJ** profile finishes and protects tile step edges from mechanical impact. The section of the **SQUAREJOLLY SJ** profile has two perpendicular sides that perfectly resolve the 90° corner of the stair. The minimal, modern design is ideal for commercial and residential applications.

squarejolly SJ

(SJ 1001*)

SQUAREJOLLY SJ-IL Stainless Steel AISI 304 DIN 1.4301 / AISI 316 DIN 1.4401

This stainless steel profile ensures high resistance to most diluted chemicals found in laboratories and aggressive detergents present in food processing plants, commercial kitchens, slaughter houses, breweries, public toilets and hospitals.

AISI 316 standard is recommended for marine environments and harsh chemical exposure.
