

STAIRTEC SW 10 AS is an innovative, silver anodized aluminum non-slip profile: an excellent and durable alternative to adhesive mineral grain strips. The grooved, thin, non-slip T-shaped section can be integrated to natural stone and wood stairs. Install the profile off-site.

stairtec SW

INSTALLATION:

1. Drill a 1/8" (3.5mm) hole in wood (3/16" - 4mm in stone).
2. Make sure the hole is at least 11/32" (9mm) deep.
3. For wood stairs, simply hammer the profile into place.
4. For natural stone stairs, insert the profile and use the appropriate adhesive.

STAIRTEC SW 10 AS Silver Anodized Aluminum

This profile has a silver coating, suitable for both indoor and outdoor application with good resistance to oxidation.
