

woodtec LG

WOODTEC LG profiles are specifically designed to join two adjoining floating wood floors. The size and shape of the profile section allows for differential movement typical of wood flooring. Its smooth top surface fits under doorways making it perfectly suitable for thresholds.

WOODTEC LG-A*N Anodized Aluminum

This profile is available in three finishes: silver (AS), gold (AO), bronze (AB). Due to the chromatic variations available, it is especially suitable for elegant residential detailing. It is highly resistant to oxidation and less resistant to mechanical impact.
