

Solid synthetic resin **WALLPROTECTIONWA** corner guard is scratch resistant and self-extinguishing. Its smooth surface is hygienic and easy to clean. The profile is designed to be used in conjunction with **WALLPROTECTION** baseboards and wallguards. Available in a variety of colors which can be coordinated to create a "two-tone" design; the center strip in a darker color is more resistant to stains and impact.

wallprotection™ WA

WALLPROTECTIONWA 60 P* Corner Guard in Solid Extruded Synthetic Resin
 This profile can be extruded in a single color or co-extruded for a "two-tone" design. The profile is tolerant to mechanical impact and most diluted chemicals and detergents. Available in white and grey. Other colors available upon request, minimum quantity required. See page 107.
